ISO

Standards quality control

“हुनर है तो हौसला है”

The “Rural Urban Council of Skills & Vocational Studies” is accredited with 'ISO' (International Standardization Organization) ratification which in itself is the Mark of Excellence. The Quality Management System is in Compliance with ISO 9001: 2015. ISO 9001 is a series of standards developed by the International Organization for Standardization (ISO). These standards define quality for products and services extended by the institution. For an organization to be ISO 9001 certified it must meet the standards of its institute and submit to an examination by an independent auditor. As a quality policy. The “Rural Urban Council of Skills & Vocational Studies” is committed to ensure that the products and services delivered by it are in conformance to Customers/students requirements that ensure highest level of quality. We strive for excellence in our products and services, which shall be achieved through continuous improvement in Quality Management System.

ECCE and Future Educators

The efficiency and worthiness of a Pre-school curriculum is directly related to the Educators who are entrusted with teaching the students. Our preschool preparatory program for future teachers consists of a systematic method of innovative training as we realise that it is ultimately the Educators who set the yardstick for any institution concerned with Early Childhood Care. The NTT / PTT / NPTT / AW / ECCE / PETT / PHTT & PPTT course is aimed at preparing successful and confident Pre-primary level teachers who stand to gain from our vast experience in this field.

Salient Features

Early Childhood Care & Education is one of the most progressive educational Programme in India. The institute with its various branches caters to the educational needs of students from all over the nation. The salient features of the institution can be summarised in the following points:-

- The RUCSVS firmly believes in child-centred education and attempts to offer a unique opportunity for the optimum development of child through using the teachers training method. In order to ensure that every child get proper well systematic education through trained teachers.
- A close link and contact is maintained with the student and their whole hearted involvement in the training to get their better Prosperous future.

02.

Early Childhood Care

www.ruralurbanskills.edu.in

“हुनर है तो हौसला है”

Salient Features

- Effective emphasis is laid on the inculcation of eternal moral values which are so profoundly enshrined in our rich Culture and heritage.
- The teachers and the employees of our RUCSVS are highly qualified and expert in their fields.
- The RUCSVS Collaborates and promotes communications with other Institutions concerned directly with Early Childhood Care & Education, NTT / PTT / NPTT / AW / ECCE / PETT / PHTT / PPTT Programme and other educational Programme.

NURSERY TEACHER'S TRAINING PROGRAM

Ideally, every Preschool program should be very precise in its approach, since it is aimed at young children who are in their early years, undergoing a constant transition, both physically and psychologically. A good preschool curriculum has the ability to significantly contribute to a child's proper growth and play the significant role of laying a foundation for further learning through a series of supervised experiences. It becomes very crucial that not only the Preschool curriculum that is available but also the educators who would be a part of it understand the purpose of their profile. Eventually, it is the teachers who determine what sorts of activities are best suited for your child's development. Therefore, a proper preschool program cannot survive without rightfully qualified and trained Teachers. However, today teaching training has become an increasingly-commercialised sector. Many institutions are handing out teacher preparatory certifications without making sure that their trainees have actually realised the crucial nature of their responsibilities. Teaching continues to be a self-rewarding profession and if only there is a proper training resource that could prepare knowledgeable and responsible educators, emotional and financial satisfaction is guaranteed. We have taken yet another step in making our approach towards pre-primary education the most comprehensive. We have launched a teacher training course that covers nearly every aspect that is related to preschool education. Being specialists in our field, we realise that the Preparatory course for future Preschool Educators should be modified according to the various needs of young children as their behavioral and educational demands are very different from secondary/senior secondary students.

03.

Nursery Teacher's Training

www.ruralurbanskills.edu.in

“हुनर है तो हौसला है”

To be a good Nursery/Pre-school Teacher, you must have:

- The ability to build good relationships with children, parents/carers and colleagues.
- Commitment to equal opportunities.
- The ability to work in a team but also to use your own initiative.
- Organisational and time-management skills.
- The ability to manage classes well and deal with challenging behaviors.
- Excellent communication skills.
- Patience and a good sense of humor.

About Teacher Training

It's the children in the 21st century that will carry forward the ethnicity and put in to the expansion of humanity. Educationists these days consider that 60-70% of the awareness that a child acquires is for the period of the age of 5-6 years. Though the mother is a child's first teacher, but once the child enters school it is the real teachers who take over their education and remain there gurus for a lifetime, therefore the teachers need to be given the right kind of training. This guidance can be separated into Montessori, kindergarten, nursery, secondary, higher secondary and technical training. Both preschool and nursery schools lay the foundation in early childhood learning. The course provides Specialization in Language Awareness and Classroom Management to candidates who have a passion for teaching young learners. These courses can be full time classroom, distance mode or even on-line in some cases.

In spite of having a number of Nursery Teacher Training Institutes in INDIA, there is a constant demand for Teachers' Training Courses especially the ones that lay more focus and stress on the English language. The pattern for teaching English is more advanced and application oriented. There is a lot of attention paid to the core areas of the language. They are reading, writing, listening and speaking. Each part has a separate coaching and guidance involved. There are modules that take up each part individually and the teachers are guided and taught by highly professional staff. A course in teacher training is internationally recognized and has a global value. It also enables women to open their own preschools.

Nursery Teacher's Training

www.ruralurbanskills.edu.in

“हुनर है तो हौसला है”

Why Teaching Profession ?

- Harmony Between Career & Family Life.
- Stay Connected with Education Field.
- Stress Free Work Culture.
- Short Yielding period.
- The Noblest Profession.

Start your career as a Teacher today

The Concept of Education ,in modern times has changed altogether. The student is no more considered to be having an empty mind that has to be filled in with knowledge by the teacher.

The role of a teacher has changed from an authoritarian to a friendly guide, a manager, a facilitator, a psychologist and a judge simultaneously. The curriculum is no longer an exercise for memory but it leads the students to reflect deeply and is activity-based.

It is designed , nowadays, in such a way that an overall development of individuals is brought about by catering for their physical, emotional, intellectual, social, aesthetic and spiritual development. This makes the job of a teacher more demanding. Thus the teacher needs to be well equipped with all the skills to do justice to the children..

Quite often the person himself is unaware of the potentialities the knowledge imparted by the institute provides the confidence and the in depth knowledge which enables him to face the interviews with utmost ease. The training grooms the person as per the industry requirement, which develops and elevates the personality to such an extent that our students will have a cutting edge among other students. Our course judiciously combines theoretical knowledge with practical experience. Needless to say at the end of the program our trainees are equipped with the exquisite skills to excel in the customer service industry.
